Chute Impact Aprons

Part No.: T 1400 (Tooth Profile)

Part No.: T 1401 (Flat Profile)

- > NILOS® - impact aprons are produced in a special toothed profile.
- > The toothed profile allows the bulk materials being transported to be held and thus forms an excellent wearresistant layer in the open spaces from the material itself.
- > Flat Profile Aprons are also available.
- > NILOS® - impact aprons can be produced in any size and are interchangeable for the middle zone area.
- > The impact apron can be applied without any problems to any type of chute wall, etc., by means of a simple holder.
