Product Information Sheet

Razer SureClamp™ Skirt System

Function

To provide an effective means of securing skirting rubber to the throat of the conveyor chute thus enabling a positive seal.

- > Assists in the process of minimising environmentally damaging dust escaping from conveyor transfers points.
- > Positively clamps the rubber skirt seal to the chute throat.

Advantages

- > Razer SureClamp™ is manufactured from 100% stainless steel for a long and trouble free life cycle.
- > Can be installed as a complete mechanism as an aid to installation or as separate components in tight fitting applications.
- > Arrives on site pre-assembled and ready for installation.
- > Retains all its safety features even when cut to special lengths.
- > Safety pins installed to ensure that the clamping mechanism will not vibrate loose over time.
- > Acme thread ensures rapid adjustment and prevents thread seizure.
- > Secures all thicknesses of skirt rubber.
- > Can secure all proprietary brands of skirt rubber/polyurethane.

Applications

- > All conveyor transfers.
